Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions to Intervene, and Competing Applications: Tenn-Tom Hydro, LLC

On July 5, 2018, Tenn-Tom Hydro, LLC, filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Stennis Hydropower Project (Stennis Project or project) to be located at the U.S. Army Corps of Engineers' (Corps) John C. Stennis Lock and Dam on the Tennessee-Tombigbee Waterway, in Lowndes County, Mississippi. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) a 150-foot-long, 25-foot-high trash screen; (2) a 180-foot-long, 80-foot-wide intake channel, at the east abutment of the Corps' existing spillway; (3) four 10-foot-diameter, 60-foot-long steel siphon penstocks; (4) a 100-foot-long, 50-foot-wide powerhouse containing four generating units with a total combined capacity of 8.0 megawatts; (5) a 120-foot-long, 100-foot-wide tailrace; and (6) a 0.6-mile-long transmission line. The proposed project would have an estimated average annual generation of 52,000 megawatt-hours, and operate run-of-river utilizing surplus water from the John C. Stennis Lock & Dam, as directed by the Corps.
